Ox Bodies, Inc. Announces New Product Designer, Product Design Engineer Positions

Fayette, AL (Aug. 5, 2014) – Ox Bodies, Inc., manufacturer of dump truck bodies and end dump trailers, recently announced the hires of Michael Yi as Product Designer and Robert Keeton as Product Design Engineer.

Yi's new role will be focused on supporting the installation area and service parts sales. He will also be responsible for custom body designs. Yi has previous experience in the fire protection and security systems industry.

Keeton will assume the RTS (Readiness to Serve) lead position in engineering at Ox Bodies. Keeton brings with him 29 years of experience in the engineering field.

TBEI CEO & President Bob Fines said, "We are thrilled to fill the Product Designer and Product Design Engineer positions with such talented individuals. Both Michael and Robert will be tremendous assets to the team in our effort to design and manufacture the highest quality products for our customers."

Since 1972, Ox Bodies has been a leading designer, manufacturer and installer of medium and heavy duty dump bodies and trailers, platforms, trash bodies and related accessories. Ox Bodies is part of the Truck Bodies and Equipment Inc., (TBEI) family of companies.
