Trash Talk!

Let's get down and dirty and talk about trash. There seems to be an abundance of it this season with all the landscaping and brutal storms.

Read on and see how Ox Bodies CLEANS UP.

Don't forget to let us know what you think about our Monthly Newsletter. We're coming up on our 1 year anniversary and we're thinking of ways to make it better for you. You need to tell us how we can help.

Ox Bodies is well known for Mavericks and Stampedes, but did you know that we have a competitive line of trash bodies? Our trash body is designed to haul lightweight construction & storm debris, landscape materials, or trash. With the barn door tailgate and underbody hoist, you can gain access quickly and release materials easily.

We offer a lot of standard features as well as basic options. Visit our website and download the Trash Body literature for more information on hoist options and load capacities.
